IV. NEW BUSINESS

A. Application 2015.03

Lynn Rosetti gave an update on the Rezoning Request at 13220 Gulf Boulevard from R-3, Medium Density Residential, to PD, Planned Development. The existing parcel contains a three-story, 43-room hotel west of Gulf Lane and a one-story multi-tenant commercial building between Gulf Lane and Gulf Boulevard. The applicant is seeking to remove the existing commercial building and construct a 30-unit hotel building (5 stories over parking) between Gulf Lane and Gulf Boulevard.

The request to open public comments carried over from June 15, 2015 for the rezoning of the Barefoot Beach Resort. There are new revised drawings from the Architect for the Planning Commission to review.

All public speakers were sworn in by Robert Metz; City Attorney.

A presentation for the Architect's revised site plan was given by Jack Bodziak.

Jan Norsoph, an expert Planning Consultant hired to represent Madeira Bay Resort gave an overview of his planning report. Mr. Norsoph's recommendation is to deny the request for PD rezoning and direct the application to go through the normal R-3 variance process.

Jack Bodziak gave comment on Mr. Norsoph's report with some clarifications of calculations within Mr. Norsoph's report.

Tom Edwards; was concerned about contiguous property along Gulf Lane if the PD zoning is approved and the density averaging which could be allowed. He is also concerned about the positioning of the proposed building and the view corridor.

John Rudzik; spoke on behalf of his brother Bob, and the impact that the proposed property will have on the resale of his brother property with an obstructed view.

Lawrence Lunn; Member of the Treasure Island /Madeira Beach Chamber of Commerce spoke on behalf of tourism to the area and the positive impact the proposed property would have as far as accommodating housing for travelers.

Sarah (Betsy) Kline; gave comment about her life history in Madeira Beach and the house she owns on Gulf Lane. She would like the beach to stay on smaller scale buildings to reserve the beach feeling of her home.

Scott Gast; Contractor/Realtor living on Madeira Beach gave his opinion on his approval for the proposed project on a higher narrower building, instead of a shorter longer building.

Rose Llauget; Resident located south of the proposed project on Gulf Lane is opposed to the position to the building.

Kathleen Willard; Resident on Gulf Lane is concerned with the congestion of traffic and parking with the proposed project, and would be more in favor of a longer shorter building compared to the higher building.

Cindy Edwards; Resident of Gulf Lane is in favor of the zoning staying R-3, and suggested the proposed project to be Townhomes instead of a hotel. She would like the zoning to stay R-3.

Ron Llauget; Resident of Gulf Lane is against the new zoning of PD and would like it to stay R-3.

Doreen Moore Resident/Business Owner, Clarification about the canceled neighborhood meeting, Ms. Moore also commented on how many lodging units have been turned into residential areas.

Jan Burmeister, Purchased at Madeira Bay as an income property and feels it would be a hardship to allow the projected project. obstructing the view from her condominium unit.

Submitted by: Patty Kordis, Assistant to the Building Official

We the undersigned property owners oppose the Barefoot Beach Planned Development as proposed because:

It can be built at the proposed density without exceeding the height requirements by 2 stories;

The 6 story height is inconsistent with the City's Comprehensive Plan goals and criteria;

Its height is incompatible with the low-scale development of nearby lands and activities;

It will create a Canyon-like Effect along Gulf Lane and a Wall Effect along Gulf Boulevard;

It will change the character of the development along Gulf Lane and Blvd setting a precedent for a Wall of similar future construction to the overall detriment of Madeira Beach, its Zoning and Planning criteria and its citizens.

We the undersigned property owners oppose the Barefoot Beach Planned Development as proposed because:

It can be built at the proposed density without exceeding the height requirements by 2 stories;

The 6 story height is inconsistent with the City's Comprehensive Plan goals and criteria;

Its height is incompatible with the low-scale development of nearby lands and activities;

It will create a Canyon-like Effect along Gulf Lane and a Wall Effect along Gulf Boulevard;

It will change the character of the development along Gulf Lane and Blvd setting a precedent for a Wall of similar future construction to the overall detriment of Madeira Beach, its Zoning and Planning criteria and its citizens.
